

Technical announcement

FinePix S3 Pro and S2 Pro **Nikon lens compatibility upgrade**

An upgrade is now available for the FinePix S3 Pro and S2 Pro to enable full compatibility with the Nikon AF-S DX VR Zoom Nikkor ED 18-200mm f/3.5-5.6G lens.

Problem

When the zoom is set to the wide-angle position, if you attempt to focus using AF (Auto Focus) when the distance scale is set to infinity, the camera may occasionally fail to focus on close up subjects.

This problem effects the following cameras:

FinePix S2 Pro – All cameras

FinePix S3 Pro – Cameras with body numbers (on the bottom of the camera body) that precede the following numbers:

61L10001, 61W10001, 61010001, 61Q10001, 61A10001

Please note that this upgrade is not required by anyone not using the Nikon AF-S DX VR Zoom Nikkor ED 18-200mm f/3.5-5.6G lens.

How to have your camera upgraded

This upgrade is not simply a firmware update and must therefore be carried out at our service centre. The upgrade is, however, free of charge.

Please send your camera to the following address along with a covering letter explaining that you would like the Nikon lens upgrade to be carried out:

Fuji Photo Film (UK) Ltd
Camera Service Centre
PO Box 403
Bedford
MK42 0LF

If you have any further queries, please call our helpline on 0870 084 1310 where one of our specialists would be happy to help.
